Seminar on "Manufacturing ERP/ APS / MES"
Through the Top ERP/APS/MES Technology,
Manufacturing can achieve the most efficient Production
Planning and Scheduling, Making fast and wise decisions by
consolidating real-time information with Mobility

Date : 7 Jul 2017 (Fri)
Time : 2:30pm - 5:00pm
Venue : FHKI Conference Room

The manufacturing industry has faced the challenges of dull or excessive materials due to unsynchronised raw materials and output. Moreover, it is difficult for management to make quick and wise decisions as the production data is not captured in real-time.

Through the top ERP /APS/ MES technology, manufacturers can make the best use of resources through intelligent production and real-time & accurate data to effectively monitor the production, reduce waste and maximise capacities. Manufacturers can also consolidate real-time information with mobility solution, thus quickly response to the market. In view of this, representatives from Data World Solutions Limited will introduce the top ERP/MES technology which enables Manufacturing to achieve the most efficient Production Planning and Scheduling in order to make fast and wise decisions by real-time information.
