8 April 2019

Application of digitisation is an important aspect of government's **"HONG KONG INDUSTRY 4.0"** modernization program. Part of the transformation is to encourage the wider use of technology. We will soon see a transformative shift from traditional SMEs into **"SMART SMES"**, a switch from traditional services to **"HIGH VALUE SERVICES"**. Robotic Process Automation (RPA) can be an enabler to help businesses to focus their investment in areas that can help them become more competitive.

Join us on 25 April 2019 and learn how digital transformation and RPA can fuel your organisation growth.

Date : 25 April 2019 (Thursday)

Time:	2:30pm - 5:00pm (Register starts at 2:00pm)
