Ref. no : 2017/116

8 August 2017

- Minimize risks and optimize performance
- Differences in safety regulations between China and foreign countries

- Use risk assessment tool to improve safety management performance

Intelligent Inherent Safety Management in the Automation Era Seminar

Date : 1 September 2017 (Friday) Time: 2 :30 pm - 5:30 pm

- Useful recommendations of safety management expert
- New Ideas & strategies from misunderstanding of production safety management

Risk assessment is the most important and basic safety management tool in Europe and the USA. However, owing to different reasons, this tool is not statutory in mainland China. As a result, it brings hidden risks to the safety management of the enterprises, such as the below aspects:

- Customized production line and equipment
- Non-standard production process
- Risk assessment in factory (machinery, electrical safety, etc.)

This seminar will be helpful for the EHS personnel, engineering personnel and management personnel in the manufacturing enterprises to understand the various difficulties and solutions in the plant safety management.

Date :	1 September 2017 (Friday)
Time :	2:30pm - 5:30pm
Venue :	FHKI Meeting Room 1 31/F, Billion Plaza, 8 Cheung Yue Street, Cheung Sha Wan, Kowloon (Lai Chi Kok MTR Station Exit A)
Content and Speaker :	<p>Seminar Abstract:</p> <ol style="list-style-type: none"> 1. Production mode in the automation era 2. What is the impact of these changes on safety management? 3. How to use risk assessment tools and intelligent technology to promote inherent safety management? 4. Professional suggestions <p>Lecturer Profile: Mr Nevill Lv - in charge of Plant Engineering Service in TÜV SÜD China Mr. Nevill Lv, expert of machinery and factory safety and risk assessment in TÜV SÜD with 17-year experience, has worked in Germany, Japan, Singapore and the USA for several years. He is also the expert member of Guangdong Provincial Association of Work Safety and familiar with the rules and regulations for safe production in mainland China.</p>
Fee:	Free (Refreshment will be served)
Language:	English & Mandarin
Target:	Managers; Those who are interested or responsible for Engineering, Safety and EHS Such as Safety management personnel in manufacturing enterprises in mainland China, who are concerned about the safety accidents like machinery injury, fire & explosion and storage rack collapse
Registration :	Please go to FHKI Website or scan the QR code with smartphones
Enquiry :	Ms Sindy Lam (Email: sindy.lam@fhki.org.hk ; Tel: 2732 3149)
