## Information Sharing and Networking

DEEP C INDUSTRIAL ZONES

7 December 2018 (Friday) 2:00pm-5:00pm FHKI Conference Room

Vietnam has invested massively in state-of-the-art multimodal infrastructures in Haiphong. These developments together with other advantages (such as the economic zone tax package) bring tremendous business opportunities for manufacturing, logistics and service companies. A list of companies have already found their way to this Northern city, making Haiphong one of the fastest growing cities in Vietnam with a GDP growth at over 14% in 2017 while throughput via port increased by 17.7% over the same period.

What are the points of attention to be considered when foreign enterprises want to invest in Vietnam? To help business community in Hong Kong answer this question, various experts are going to share their insights on different aspects in our Investment Networking Event.
