Possible adjustment of the list of prohibited imported commodities (steel products) under Processing Trade

The FHKI was informed that in the second half of this year Mainland authorities may plan to include more commodities, in particular steel products, into the prohibited list of processing trade.

The FHKI is now collecting views from members who need to import steel products under the processing trade mode, so as to provide to the Mainland authorities a list of commodities of which the industry is strongly against being included on the prohibited list. Members please list out the commodities (with tariff codes) that you consider **must not be included on the prohibited list of processing trade, supported by data and specific cases.**

Please send us your inputs to Jeffreys.tsang@fhki.org.hk, or tax: 2721 3494 on or before 18 August (Tuesday). For enquiries, please contact Jeffrey Tsang at 2732 3197.
