FHKI high-level delegation to visit Beijing

Led by Chairman Prof Daniel M Cheng, a high-level delegation from the Federation of Hong Kong Industries (FHKI) departed Hong Kong this (Tuesday) afternoon for a three-day visit to Beijing. They will meet with the relevant Central Government officials to discuss issues pertaining to the sustainable development of Hong Kong industries and interests of Hong Kong enterprises in the Mainland.

“We hope to learn more about the national 13th Five-Year Plan and Made in China 2025 so as to better position Hong Kong industries in the national strategic development and to drive reindustrialisation, and explore business opportunities for our members. The delegates will take this opportunity to express our views on industrial and labour policies affecting Hong Kong enterprises operating in the Mainland, as well as facilitating them to tap into the domestic market. Through the communications, we hope to forge closer ties with the Government and business organisations concerned,” Prof Cheng said.

During their stay in Beijing, the delegation will call on the United Front Work Department, the Hong Kong and Macao Affairs Office of the State Council, the Ministry of Environmental Protection, the Ministry of Commerce, as well as the Ministry of Industry and Information Technology.

Other members of the delegation will include FHKI Honorary President cum Legislative Council representative Hon Andrew Leung; FHKI Honorary Presidents Stanley Lau and Cliff Sun; FHKI Deputy Chairmen Willy Lin, Jimmy Kwok and Eric Yim; Director-General Arthur Ho; General Committee members, and members of the Mainland Affairs Committee and Pearl River Delta Council.
